

S/N	NAME	DEPT/MINING ENGINEERING	COMMENT
1	ADEJUMO JANE KAYPUNG		The app is a very innovative app that makes graph plotting very easy but it should be explained well to students so that while they find it using it, they will find it easy to substitute and evaluate their values.
2.	Adeshina shola A.		It is a very good app, nice invention ,saves time.
3.	Amuga kereen Gideon		Using this application makes work easy and very fast
4	Alia Doris Oyibo		It make every thing about graph easily.
	Onwuakagba Oyeka .A.		the UJ- Math make graph plotting more easier with more level of accuracy, with the graph tool personally it improved my interest in toward graph plotting and my leveling of understanding.
6	Daluguut Dalami Swaba		The App is good and simple but it would be better if you could input the values of the x and y axis once rather than by turn, and if the app graph could start from zero(Let the initial be o).
7	Ishaya Manasseh Danukul		The App is a very good tool to be used by student in both secondary and tertiary institution. The App should be more simpler to be used by students in secondary school and similar should be done to high- light more about the App to the student.
8.	Yilleng Jennifer Titus		The app is a great invention ,it helps student in plotting the graft at ease, It is made easier and understandable.
9.	Sunday Obam Abinya		The App should be made available on other devices such as Laptops, iPhone and blackberry smartphone.
10	Uche Henry.C.		Honestly speaking the graphing tool is very good and okay. Thank you sir
11	Zontong Jiroh		The app is really helpful based on my experience and if more educational apps like this are credited, I think education and learning would be interesting and less hectic. Thank you very much sir.
12	Ebikemefa Ebimobowei .C.		Its is actually easy to use the App and it is not really fast it require a lot of fun and the student using it should have the good knowledge of what the app is really all about
13.	Joni –Edokpolor Collins .E.		UJ-Math graphing tool is a start in helping student what they do and also be happy about the end product of it. But the observation I have made is that since UJ-Math came as a result of one of the lecturer hard work, then for a student of UJ to activate the app

			<p>should be for free and those in various university should be the one paying the token. Also I would say that UJ math should not only be applicable to devices, but if means could be improvise so as it can be introduced down to calculator level, ten it would be a start in eradicating mass failure in plotting of graph because definite devices wouldn't be allowed into the examination hall. And I also observe that the App on it own could just freeze or hang when in use and in such cases it causes waste of time and bring about frustrating the user.</p> <p>UJ-Math graphing tool is one of the best App being used by me so far and so would advice that all complain should be met and issues, the App has should be resolved as well the app should be improved as I said earlier on down to calculator level. Also, using UJ-Math graphing tool has helped me understand how easy it is in graph plotting and the fun included in doing that.</p>
14.	Jacob Albert Akaninyene		M I suggest student should be taught properly how to plot graph before introducing app as an option
15	Jonathan Manji Musa		M I observe that UJ-Math Graphing Tool app is agood and time saving and therefore I advise that it should be encouraged in both universities and secondary schools to enhance the effective plotting of graphs of different sorts.
16	Adegoke Olalekan Jacob		M MaGT app is a very important tool in plotting your graft and its understandable.
17	Mohammed Salisu .A.		M Its very interesting because it boost the moral of student ability to know the use of new apps. It increase the desire of student not to stayed reluctant. lastly I want you to simplifier to a minimum device so that it will be contain in our hand phone.
18	Samuel Ayo Aaron		The government of this should please give attention to such intellectual to support and expand it more ,because it will address many issues in the field of academic and for research improvement.
19	Simon Roplong Jwakmak		M So interesting but my advice is to try and make it available in the android version so student can make use of it even at home.
20	Jakkat Wilford Plangdok		M Easy to use and saves time ,it should be available in every device.
21	Adejumo Adeyemi John		M Make it available in every device and it should to more accessible to everyone regardless of location .
22	Alabede Lukman		M It is very interesting ,no matter how difficult or complex

	Ademola			the scale of graft is, The (MaGT)will be use to evaluate the scale and plot the graft effectively.
23.	Japheth Pwafukadi Ngbaranduma		M	Using the application makes work easy and fast I must say it so encouraging, thanks sir.
24	Elumelu Deborah Odera		M	It's a wonderful tool which has greatly helped me find scale easily and plot a very accurate graft as well. It has improve the university ,I will like the app to have android version so it can be installed in a portable phone for easy access rather than going to the library always.
25	Abdullahi Awwal Aliyu		M	I have observed that a lot of student are very fascinated about the app and it has built a strong learning skill.
26	Achawu Daniel Inalegwu		M	I advice that the MaGT should be pushed further to other universities in the country and overseas because this is a new age of productive physics{grafting}which will help other students and lecturers everywhere.
27	Irimiya Friday Yunana		M	This aid of grafting tools should not be only used within but rather let it be passed to other learning institution.
28	Chirven marchapp		M	It's a welcome development but there should be more improvement.
29	Dung Dakim Joseph		M	
30	Kumeven Nalcit		F	
31	Leo Linda Nshe		F	
32	Markus David Sunimun		M	
33	Dawat Emmanuel Nanfwang		M	
34	Gwamzhi Rupmichit Ladep		M	It is a very useful tool in graph plotting and I love using the app. If helps me understand what I am doing when ever I plot my graph and I enjoy plotting because it makes it easier.

S/N	NAME	DEPT/CIVIL ENGINEERING	COMMENT
1.	Tanko Frank Nyashiya		Keep it up,it's a great invention.
2.	Lucky Osareme Robinson		It is the best application concerning physics experimental reports that I have seen so far a well done job.
3.	Gotan Zumji Solomon		<p>UJ-math graphing tool is really interesting not only for academic purpose but also for person take pride in all pleasure as a Hobbie. I often take pride in using the tool especially when my graph plotting seems satisfactorily. I am proud to be a student learning under great inventor.</p> <p>I observed that the tool doesn't really obey the rule that when finding intercept on vertical axis, the horizontal axis should start from 0,0 axis origin. God bless the inventor of this App .</p>
4.	Bako Shannom Paul		The Uj maths graphing tool is a very interesting discovery which makes graph plotting easier my advice is that the application should be made available for all phone types so that every student will have access to it, secondly the procedures for operation should be explained and also some phones don't open the application I think this should be solved.
5.	Ekwedike Oscar		More clarification should be made for better understanding of letters used in representations for easy usage.
6.	Paul Retplang Jacinta		The scale should be made in a clear way and easy to understand by the student.
7.	Kyakkyes Peter Francis		A help program should be appended to the app to make the usage easier for a novice. More research should be made to develop a tool that can plot quadratic ,polynomial, and trigonometric graft.
8.	Kpardong Nanna Sunday		I observed that the accuracy can be met when graphing using tool and I also

			advise that this tool be put on a separate device so that secondary school student can be able to use it during Waec ,Neco etc since phone are not allowed.
9.	Salisu Sadiq Garba		Let a device be invented or innovated which contain the use of the UJ-MaGT App only ,so that it can be approved for many exams.
10	Polycarp Collins Duhuba		UJ-Math's graphing tool is very helpful, it made plotting of graph and finding of scale very easily. I love it and students need to have this application, it helps a lot, is really nice. I mean it wouldn't hurt to just download the App ,the advantage is greater. My fellow students, you just have to get this application.
11.	Danboyi Samuel Dafai		I advise that students should not neglect this graphing tool because it helps a lot. I observed that one can get a very good and accurate scale with this tool.
12.	Enokela Peter Adole		The graphing tool is very helpful. It makes graph plotting easier and faster.
13.	Ogujor Success Ufuoma		UJ-Graph is a very wonderful application but very few people know and have access to it, also one need to understand the terminologies involved to use the app effectively. My advice, make the app more accessible especially to students outside university of Jos and also provide an avenue for tutorial to explicitly explain how to use the app as this would go a long way to improving student academic performance.
14.	Ajigah Mercy Ike		This is helpful in less than 30minutes my graft is completed ,it should be made available in phone and tablets so it can be made easily.
15.	Mark Neto Shallom		I think they should add an instruction manual to make it easier to use,I also think the should make it portable which will create easier access to it.
16.	Josiah Kelvin Chukwuma		UJ-Math graphing tool, I feel is the best

			<p>thing that has ever happened in the world of graph plotting. It is just the best , It is easy to use and it saves time. With it I don't think much when I want to plot my graphs have not been easy, but UJ-math graphing tool, I now love plotting graphs, If I can reach out to all student in the world I can encourage them to use the app over and over.</p>
17.	Ishaku Maxwell Mador		<p>The UJ-maths graphing tool is very good invention. Although student cannot use it in writing Examination because devices such as phones, tablets are not allowed in examination hall which is serious barrier when one want use the app. I will advice that a manual calculation should be made on how to finf the scale, origin and other thing without the app, so that even when one is without a phone ,he/she will be able to calculate and evaluate the graph. Apart from this, I think the activation cost is too much and that students who are not able to afford android phones cannot use which is not good. In conclusion,UJ-magt is good technological invention.</p>
18.	Mallo Benedict Chi		<p>I Have learned so many things while using this app.</p>

19.	Jiges Kamji Fortunatus		<p>There should be freedom on whether to use the app or not just incase if one finds himself in a place where the app is not available.</p>
20.	Ako Tamar Mrumum		<p>UJ-maths graphing tool (UJ-Ma Gt) is a very nice and interesting tool to use. I do not find any fault in it.</p>
21.	Bot Mafeng samuel		<p>Sometimes scale chosen by the computer does not tally with the numbers of square</p>

			in the graft sheet.
22.	Ajibaniya Bala Angyu		I observed that the graft is been made in a concise way that enable the users (students)to find graft plottind easy and understandable.
23	David Otobo Ogenyi		
24	Joshua Adedokun Elijah		
6.	Akoh Stanley Oloche		
7.	Uba Emeka Godswill		
8.	Yakubu Patience Akumishei		
9.	Sati Panshak		
10.	Odey Christiana Beten		
11.	Atenger Moses Aondonal		
12.	Musa Mattew sambo		
13.	Sunday Emeka Sameul		
14.	Simon Ochai Okeh		
15.	Yiltoka Monica Nendelmwa		
16.	Shedrack Brainet Dayokkon		
17.	Gaam John Naandiit		
18.	Metu Emmanuel u.		
19.	Eze fortune Udochwkwuka		
20.	Damna`an Vincent Dabo		
21.	Dajuma Chalnan Kumban		
22.	Mafeng Elias Gyang		It is good to go
23.	Dimike Joseph Ifeanyi		I hope it will be accepted national wide, so I can use it even for professional exam.
24.	Bulus Timnan Gwak Bong		
25.	Obazee Emmanuel		It`s a way to go through for their is room for improvement
26.	Ikwutar Godwin Ezra		Let make it available to the world to see what it is of
27.	Kefas retyit Yoila		In finding either scale table or slope/intercept formula, the space for setting the constants should be provided for both axis on the same page in order to safe time and the stress of going back to eliminate them which may lead to confusion.
28.	Gings Chomo Christopher		The App is really helpful based on my experience and if more educational apps like this are created, I think education and learning would be more interesting and less hectic. Thank you very much sir.

29.	Chuhwak Blessing Mancha		
30	Aifred Okyillah Ngoma		My advice is that it should be transfer into calculating it and for the $y_1 y_2 x_1 x_2$ and the intercept should just be in the formed of the so scientific calculator that has all the function key , I will be grateful if my advice is that you should put into consideration and I pray that God will help You to finish wht you have started.
31.	Akor Godwin Adegbe		My advice on UJ-maths Graphing tool is an area of publishing the application that is uploading on the internet which will not only enhance secondary students of higher learning but students of low level like the secondary school level when plotting graphical problems or exercise.
32.	Idegah Richard		My observation about the use if the application is concerning the use of phone most especially android phones,most student donnot have those expensive phones and are left behind on the use of these development,My advice is that this application should be futher worked upon and thereafter be made a standard for map plotting
33.	Umekwe Martins Ugonna		
34.	Andat. Anne Dashe		This application make plotting graph easier,it also straight forward and accurate,concerning the UJ-MaGT; the slope/intercept formu does not seem to junction properly.This was just observed on my device but on so many other devices, so I think you should look into it and fix the problem. But order application makes graph work dot easier. You really did a great job with the application and I am also glad the app is coming from the university of jos.
35.			While I was using the App during the test,The app stopped of which took my time cause me to rush my work, please it is necessary of the can be stable,truly the app is a welcome ideal by thestudent

			association. We love it and more exam should be given on the use of the App in other to the horizon of the student in these area,sir you truly have the success of student
36.	Pam Dajack Dung		My advice pertaining the Graphing tool is that a little of the student complain with time which is as a usual of when using the tool i.e when you are working off table formula one have alter working of Y axis we have to go out

S/N	NAME	SUBJECT	GENDER	COMMENT
1.	Musa Evelyn Kyenya	BIO EDU	F	
2.	Daniel M.Tok		M	Uj-MGT should be used in all Nigeria school and also worldwide so as to make graph plotting easy and what I observed is that the back button doesn't work because the app doesn't just go back
3.	Daniel Shadrach		M	
4.	Abdullahi Maimunca Ewrama		F	
5.	Jane Sahmicit Jemkut		F	
6.	Katden Joshua Senaan		M	
7.	Bwoetsen Nobert Danaan		M	In fact, it is of course a thing of appeal most confess that the new invention of your graphing app will indeed help and create a great pleasure in students to develop the interest in vegular useage of your graphing tool, well, my own only and tittle ad Ice of mine to you is that don't let anybody proof to you that the new system should be abolished. Simply because I have personally observed much reasons that if this shall be put at feeling on the students to keep using your graphing tool.
8.	Joshua Nathan Kim		M	My advice is that tutorial classes should be held on how to use the UJ-maths graphing tool, with the

				help of that, first time user of the app will find it more easy.
9.	Yaki Mariam Sarki		F	It raelly splendid and wonderful invention I never thought I cold plot a graph well unit I was thought on how to use the great MaGT; I pray it continueto the basic level of academic.
10.	Bapak Katlong Dali		M	Since we can't use our phone during exams, then I advice that the app should be modified into calculator that the students can use in the exams hall.
11.	Chuwang Katherine John		F	
12.	Abayomi Esther Tolulope		F	
13.	Lang Favour Simi	BIO EDU	F	
14.	Ibrahaim Shagaya Abubakar		M	
15.	Ekom Ovey Emmanuel		M	
16.	Kimpuk Racheal Akanu		F	
17.	Kumdet Kennan Godiya		F	
18.	John Apolmi Nashe		M	
19.	Amos Emmanuel .		M	
20.	Ali Khadijat Muhammed		F	
21.	Laban David		M	Make other school to have access to the app.
22.	Dauda Mercy Nyiri		F	I think the school should really encourage this kind of investment so that learning can be easier and investment to the student.
23.	Mbangha Richard N.		M	I wish to advice that student should be enlighten More on how to make use of the graph app, as not all students still know how to use the app .My observation is that some student found it difficult to use the App because,due to some issues is the app not function in some phones, others couldn't use the App because they don't not smartphone, please, if possible, a manual solution should be made whereby students using other phone can get access the App.
24.	Dauda Racheal Manribeth		F	Observation: the (uj-math) is very

				<p>good because it easy to use and it save time.</p> <p>Advice: it should not be used frequently because student will relax in the place of studies(graph)and put their concentration on only on the graphing tools. They will not stress themselves in learning how to plot graph manually instead they will depend in graphing tools cause it is easy to use.</p>
25.	Salau Sa`adat Patience		F	<p>I have observed that using UJ-maths graphing tool(UJ-maGT) is easy and understanding to use and I stongly advice that it should be used by all students because you find out that is easy to understand physics and grap plotting.</p>
26.	Raymond Oghenetega Odudu		M	<p>The App is just great following the fact that University of jos makes it cooler. Effort should be put in place so that the App gain global recognition.</p>
27.	Nicholas Joseph Gadah		M	
28.	Seltim Martina Lohna		F	
29.	Yalmi Njin Joachim		M	<p>My advice as student of university of Jos is that the people concerned in the making of the App should try by all means not only in graph plotting but in other areas that affects academics. The App is very good and make learning interesting</p>
30.	Ejimobu Victor Chidudeni		M	
31.	Ishaya Mercy Garba		F	<p>I think its is a nice app it will really help student in graph plotting.</p>
32.	Sunday Emmaneul Awoyinfa		M	<p>My advice is that tutorial classes should be held on how to use the UJ-maths graphing tool. With the help of that, first time users of the app will find it more easy.</p>

33.	Enwereuro bright ikenna		M	My observation is that the UJ-MaGT should be made more practical by adding some other accessories that has to do with graphing plotting e.g Formlae, experiments and their table of values etc.
34.	Itodo Mina Ukar		M	
35.	Musa Manasseh Azhi		F	
36.	Isaac Sandra yemi		F	It should be publicized more in other for more more students to benefit from it and we`ll all do well in our academic performances. It should also be allowed in exams foe better performance.
37.	Etah Ernest Ibor		M	
38.	Wazhi Adam Yaknan		F	I observed that theUJ-maths gave students a type of “increase in interest and confidence” concerning the plotting of graphs. It is also a good innovation that would go a long way in helping students plots graphs more easily and faster. I believe it would be great if the graphing tool could be modified in a way that it could be used during examinations due to the fact that phone wound` t not be allowed in halls. Am also impressed and must command the simplicity.
39.	Junaid Zainab Adenike		M	
40.	Ajo Jumoke Jennifer		F	Uj-maGT is a good application that aids student in plotting graphs faster and easier.
41.	Ogbe Moses Ufedo		M	My observation is in terms of displaying the data respond the arrow nor the icon “done” is blocking other data played below to be seen or viewed by the user.
42	David Nadunza majidadi		M	My advice concerning UJ-maths graphing tool (Uj-maGt) is it

				should be made available to students even to those without expensive phones, I observe that Uj-math graphing tool is extremely good because it make students to be more accurate, and it also save time.
43	Emmanuel Nerat Esther		F	
44	Gong Blessing James		F	The tool should be properly taught how to be used before using it it enable accurate plotting of graph,The app help you to obtain a perfect scale, slope e.t.c.
45	John Hilary panmon		M	
46	Edozie Daniel Nwogo		M	A very good educative app but a little bit of correction should be done especially of the table formula region, when getting the values it gets to lover the work i.e cover`s the values making the the student to exist the app and start again which waste a little bit of time. Apart from that, I think the app is completely perfect.
47	Olaniyan Sunday Ayomide		M	What I really observed while using the pp was that I find more interest in plotting graph and I fell so excited when I discover that the app is move easier to plot graph, my advice it will good great achievement if the app is been introduce into our academy level and if the app can be design in another low level way so that time less privilege can also partake.
48	Aiyedigbon Josephine olayemi		F	There should be more enlightenment on how to use the application.
49	Jolly Bawa Joses		M	I observed that the app doesn`t do well with devices that have small screen. The app can be made more Flexible where by, one can find the various types of graphs with major information in it.

50	Yakubu Safiya Guwon		F	
51	Yakubu Caroline Gyang		M	
52	James Martins Afegbai		M	
53	Idown ayomide Micheal		M	
54	Francis Peace Arananme		F	
55	Hamza Aisha		F	
56	Mancha Theresa Paul		F	
57	Sani Rukaiyya haruna		F	
58	Rita Enoseh Madaki		F	
59	Mafwil Tabitha Abraham		F	
60	Musa Nafisatu Buruk		F	
61	Nuhu Martha Maikano		F	
62	Sunday Grace Kennedy		F	
63	Tyokighir Nguwin Gloria		F	
64	Dakim Lois danladi		M	
65	Joy Yohanna Afan		M	
66	Jonah Nebechi Faith		F	
67	Dauda chundung pam		F	
68	Helen pius magji		F	
69	Maggi Job Ashom		M	
70	Dogo Jeremiah Timbut		M	
71	Kelvin Pascal Ahmadu		M	The programmer should keep it up
72	Marukong Emmanuel Bitrus		M	As the matter of fact I sincerely happy for the graphic tools is working in standing ,since the graphic tool is working accordance with the human understanding. Since the graphic tools is been successfully design now everybody will be waiting to have another apps. The advice I will like to give now is to design another apps for finding formular in physics to make it easier for those that those that cannot drivee the formulas In order to advance the school in technology I think it will be challenge to other universities.
74.	Madu praise Uwineye		F	
75.	Dorcas Malise		F	Uj-maths graphing tool make plotting of graph easier but not every one has a phone that the

				application can be install. Though is good but what is need when some students can't have access to use it.
76.	Ogunjumo Oluwaseyi Emmanuel		M	The development should try and make it visible to all java phone e.g Blackberry and other so they can be able to access it on their phone. Good work keep it on sir.
77	Yakchan tongret Peace		F	The app should be made more accessible by other brands of phones for easy useage by students. Such phones Blackberry,Windows e.t.c.
78.	Dayom Nandom Jacob		M	To be honest the graphing tool that is the UJ-maths graphing tool is a motivation to me because it simplicities so many graphs nd also saves time and is easy to use sir keep on with your good work.I am 100% behind you
80	Mameh Victor Ojochegbe		M	
81	Murjanath Idris Abdullahi		F	

S/N	NAME	SUBJECT	Gender	Comment
1	Baba Joseph Jotiphat	Chemistry	Male	Made more accessible
2	Taave Patricia		F	The UJ-MaGt makes graph plotting a lot easier and encourage taking subjects/question involving graph plotting, I think the software could be Made more accessible by installing it on school systems because not everyone has gadgets that support the software.
3.	Tsok Joshua Danladi		M	
4.	Patience Kaliet James		F	The graphing tool welled explained and easy to use but, the turning because of the app is quite short more time should be given for student for proper usage of

				the app in order to achieve excellence.
5.	Joel Pyrilia Zugumnan		F	
6.	Simmon Shamir Jika		M	
7.	Miriam Adah Mallum		F	The app should be available to all students i.e concluding those who don't have android or smartphones.
8.	Gyeto naansat Fwangson		F	Frankly speaking, it is wonderful to use the UJ-MaGT App. My advice is that sir, you and your colleagues should please try as much as possible to get this app circulated all over Nigeria, not only in tertiary institutions but also in the secondary schools, cause I know just as it was very helpful to me, it will be helpful to other student.
9.	Nyako Rapheal Dikko		M	My advice or observation is that people should use the app cause it is very easy to understand and it helps in plotting a very good graph and it help you in plotting a graph you never though you can plot and using the app will make you see it is very simple and it help in getting a perfect scale for your slope and intercept.
10.	Ogboka Odiba Rapheal		M	It should be more user friendly, it should be cheaper for students to access easily.
11.	Egan Cyprian Ajor		M	It should be upgraded in order to accessible by all devices not only android but also IOS and windows devices, but it will be

				better and in the best form if it can be install or design in a calculator devices.
12.	Balogun Deborah Idowu		F	My advice is that there should be an upgrading to do on the app because my app stopped during the test, some student who are not having sophisticated phones cannot use it.
13.	Ibrahim kauwa Sini		F	
14.				It is a good start ,it should made more easier that both axis that(x y) data should be Calculated together, please upgrade the application
15.				
16.	Abubakar Annamotee		M	
17.	Anokwuru rejoice Ngozi			I advice that Uj-math graphing tool be introduced to other universities or other higher institutions in the country. This will be of great help to students and thus make life easier and better especially in the aspect of plotting graph sine the graphing tool app is very good and gives accurate result.
18.	Daniel Mayam		M	I fell the graph is good and it was a good job. Thanks you for the tool, I just wonder if after using the app student will be able to draw graph without the tool, I fear that we are at the point of loosing the knowledge of making graph with our brain.
19.	Lohna Paul lar			It a wonderful app that's really make the graphing

				aspect of physics easier.
20.	Daniel Dinatu Ammani			My advice is that this app should be used for exams or in exams also, my observation also is that it makes graph plotting very easier and it saves time and it is very easy to use .Thank you.
21.	Adara Beatrice okan		F	The MaGT is a good improvement on knowledge on knowing more about plotting of graph and other calculation associated to it though it does not really save time.
22.	Okafor Jude Uchenna		M	I observe that the app is very nice and easy to use and is less stressful moves student to be fast.
23.	Usman Zainab Yahaya		F	The whole art of learning is only the art of awakening the natural curiosity of young minds for the purpose of satisfying it afterwards, Thanks for being so generous and creative, the app is easier and accurate is wonderful ,it saves time and make the plotting at graph easier, what a privilege to be a partaker and we return all glory to God for using you as a blessing to this generation .More grace Sir
24.	Daniel Amanaro Shedrack			I must comment that, this invention is a good one. SI will advice that the world needs to see the UJ-maths graphing tool(UJ-MaGT).so as to interest studying(physics)

				in the aspect of graph Plotting.
25.	Chukwuka Ebuka Jeffrey			Finding the points in the graph using the app is kind of confusing so I think that this should be improved. Beside that I think ever other thing is easy going and simple to use . Grate app.
26.	Anvah Ezekiel Esson			It need a little to time to learn, it save time when used to plot graph, as an app it introduce physics in a better dimension and it can be better academic performance when used frequently.
27.	Bwakat ayuba Makwin			UJ-maths graphing tool is one of the best app I have seen so far, reason because it make my work more easier and understandable. My advice pertaining the app is this when the app sufficient time should be given to the student to enable him understand what he/she is doing PP should be thought to the students to avoid confusions App, And I pray that by the reason of this App this great institution will excel in Jesus name (Amen)
28.				UJ math graphing tool is really, interesting, it makes me like physics most especially the plotting of graph which I once find difficult, my advice concerning UJ maths graphing tool (UJ- MaGT)

				is this tool should be taught to all students both secondary and tertiary, so that the student will be familiar with the app and student will pick interest in physics. I believe students is secondary school when taught, before coming to university.
29.	Pam Precious Adams		F	
30.	Bako Elisha Gwazahlyen		M	The tool is user friendly and easy to use.
31.	Georgey Obianuju Mercy		F	The app is very easy to understand, it make plotting of graph fast
32.	Okpayi Isaac Odeh		M	I would prefer name and symbols to be use rather than just symbol Is and letter only and more time should be allotted especially during exams involving the App.
33.	Peter Azizi Blessing		F	First and foremost, I really want appreciate you guy for a job well done. UJ-maths graphing tool is really a great help for the student when it comes to graph plotting, I have observed that student were finding it little difficult because it was their step line putting their work under constant I no with time every one will love the App as it is very interesting and easy to use.
34.	Ganya Joseph Paulinus		M	
35.	Agbende Comfort Msushima		F	I advice the person in charge of the App(UJ-MaGT) should be keep it up because With the provision of the app its

				enhance and enlight students to know much about graph plotting
39.	Auta Sarah Musa	F		Wow,wow,wow, thumbs up to you, to be honest you deserve all the gratitude, appreciation and praise, well don`t have much or let me say any device to say, because to me I think UJ-Maths Graphing tool is just Perfect to me, thank and more grease to your elbows
40.	Bako Don-King		M	I would strongly like to suggest a change in the user interface, which will help you uses familiarize with the app quickly. Otherwise, this app is very useful and helpful indeed. Thank
41.	Lashem enoch Target		M	I will urge you to see yourself a hero already, this is interesting. You should put more effort into it to reduce the times of going back to the menu to start inputting data for table formula, if you can make it possible to have table formula from the data of scale formula, it will be very much easier for many r star students. If I were to rate you ,I would give it a four star. Congratulations, you make my graph plotting work much less hard. Thanks and I love your work. Great inventor nice invention. But make it a code free App as it still under research or give the code free of cost no #50

42.	Macham mapis peter		M	<p>My advice is that this app should be allowed to students disposal, because student always have problem in terms of plotting graph like my self during my secondary school, always have problem with plotting my graph because it was consuming time, boring always in term choosing scale and plotting points of more than 3 decimal places, now I have known it very easy using the app, I want to also advice that this App should be accepted nation wide and also world wide as any other theories that we art learning today, the app is interesting, time saving and easy to be used.</p>
43.	Ogbole oyigoche dominion		M	<p>First of all, I want to sincerely applaud the intellectual effort of Mr Mafuyai of the physics department, University of jos for inventing or creating the maths graphing tool(MaGT).My advice is that the app should be appreciated and recommend to every institution of learning and student should endeavor to install and register it, for it is time saving, effective, reduce stress and makes graph plotting interesting etc, final my observation about this app is the carelessness of setting at a</p>

				constant when the need arise, thereby resulting to wrong figures or answer causing the candidate to loss precious mark and this will automatic all change the countenance of the student. Once more I greatly appreciate the invention of this app. Thank you Mr Mafuyai
44.	Audu Henry Pam			My observation and advice concerning UJ-maths Graphing tool(UJ-MaGT),I must have to congratulate you sir for inventing this or discovering This wonderful Apps which is really helping students in plotting graph. I will say “ well done sir and more grace to your elbow” My advice to this graphing tool is that it should be enrolled so that students not only in university of jos but world wide can have passion over graph plotting because most students finds it difficult to plot graph and which make them loss interest in graph plotting, let me use myself as an example before I starting using UJ-MaGT,I hated graph plotting because I always find it difficult to bring out scale in my graph, how to plot the points in the graph which even contributed to my failure in PHY1071 !st test we wrote on graph plotting.(11/2/150 I don`

				know but it seems that was the graphing tool(UJ-MaGT) I have gotten something that will solve my problem for the raise of my life. using the apps in my PHY107 test.
--	--	--	--	--

S/N	Name	Department	Gender	Comment/ Observation
1.	Damar Ann Nandlingm	Micro Biology	F	
2.	Usman Patricia Godiya		F	I observed that the app waste my time mor than I doing it myself.If care is not taking you can make mistake in the counting of the mm boxes
3.	Bitrus Agatha Vou		Fature can also be added such as formular tables,physics facts(and other subject)	It is a great way of making plotting of graph easierand faster for student,I enjoye using it so I advice those that haven`t use it to try and see. Ialso will like to advice that it shoukd be made access to different devices like laptop blackberry phones,etc.
4.	Mikailu Haruna Sambo		M	Every developer has one aim which is to give satisfaction to the user with the software, But base one my observation the name given to the app has limited the number of users that can benefit from it. But by given it a more general name there are user of such app else where that are willing to make construction towards the development of the app, another feature can also be added such as

				formula tables, physics facts(and other subjects) This will help the students and other user interested in the use of this software.
5.	Zhimwang Niman Peter		M	The App actually helps but a little help towards the nature of graph i.e a sketech of graph will be highly appreciated for its even a miracle that I can on my own attempt phycsis with hope of success.
6	Waakaa Patience Doom		F	My advice is that, the founder of the graphing tool should continue what he has started cause this alone has made some of us know more about graph plotting, The most important part of it is that ,it is coming from institution of learning and that give me joy.
6.	Medada Mathias Zinai		M	It sometimes often crash; this should be fixed and the you-tube video attached to the app is not simplified for easy understanding and the sound was a bit off, anew video should be made and replaced possibly with the tutor in front of a board in action and not sort or behinh the screen,it should be updated or a version that is compatible wit Apple phone .
7.	Bawa Nankat Ramgang		M	UJ-maths graphing tool is a good App that has remedy,the problemof graphing in students life

				and I will love if the graphing tool can be upgraded and available for all student to use.
8.	Ibe Felicita Ijeoma		F	It is the best app ever when it comes to graph plotting.
9.	Kwayang Kingyu Star		F	Sir, frankly speaking UJ-MaGT is a good App which you made easy to use, but the problem it is not all student that can afford a phone that accept the app and secondly we need time in using the app because when using the app on phone the cursor stop working and we have to reboot the phone, which will take much time. You are doing a great job sir.
10.	Kelvin Ochohie James		M	
11.	Onah Veronica Ochanya		F	The tool is very good and easy to use. The observation I have is they should make it available to all types of phone to help those who do not have android phones because reason being that there is no money for them to buy.
12.	Ogwuche A. Emmanuel		M	
13.	Adebayo Honour Adeleye		M	From my own point of view as a physics student I observed that the UJ-Maths graphing tool actually make graphing easier, faster and more accurate. I also feel it should be introduced fully in all schools and it should be taught to

				physcis student all over so as to improve graphing.
14.	Nathan Samantha		F	The gaph make graph plotting easier
15.	Munonye joseph Chinonso		M	The UJ-maths graphing tool makes plotting of graphs more easier and I advice that more apps such as this should be made.
16.	Nwafor Chisom Peace		F	The tool make graph plottin easier
17.	Kevin Koeloengun Dakup		M	Sensitization is low in the university,I observed that the phone I borrowed I had difficulty in operating because the MaGT installed stoped as sooned as I start using it(3 different occasion) before the test student should be conversant with the phone they use during practice and the should be the one they use for operation to avoid un forseen circumstance,it would have been better if an UJ-MaGT app was commicated to us before wwe commenced our practicals,I personally think that the graphing tool is and a plus to this generation as it would save time and increase accuracy level in graph and some pratical problems reporting
18.	Yisa johnah		M	My advice is these concerning UJ-aths graphing tool is that if the university of jos but all over global I think it will

				be a thing to be celebrate, my observation in UJ-MaGT is that is an application make plotting of grap so easy.
19.	Ogwuche Elijah Adoyi		M	As a student observed that UJ maths graphing tool help to plot graps more faster and accurately.
20.	Sharon Monday Mwadkon		F	
21.	Ademu Victor		M	
22.	Mashhod Iyabo blessing		F	My advice goes to the UJ-maths Graphing tool(UJ-MaGT) is for them to enlight student or give awareness befofe introducing it to the student to used,Example like in physics 104T we are through with reporting of practical before introducing graphing tool, please give awareness before implementing.
23.	Thomas Dulam yakubu		M	
24.	Ukpokwu aaron Idkwulowo		M	
25.	Wannang Alex Lephen		M	
26.	Edache Linus Sunday		M	
27.	Adam Paul Owusoweshi		M	
28.	a		M	The graph work is very interesting
29.	Kuba Macham Steven		M	
30.	Oche Margaret Ezegwu		F	
31.	Sameul comfort Ishaleku		F	
32.	Pam Raymond Mark		M	
33.	Dashe Parfa		M	

NAME	Dept/ NURSING	Comment
KOS KAUWA MUNBA		Stop the application graphing tool graph should be plotted manually.
Agidi Obu Temple		That is a very well done job. Using the App. was fun.

		It is a little bit confusive It is a work worthy.
ONOWA PATIENCE O.		Due to the unavailability of computers and laptop to students, it made it difficult to get access to the Magt App. If only this app could be installed on mobile phones.
YAGBA ASSUMPTA		It is very simplified I observed the application is good, I firmly advised that the federal government should support this and schools like the secondary schools
OZOJI CHIOMA GLORIA		The application is really nice It should be made available in more computers and in the library for students to use.
Jauro Rawlings Wilib		I think the application should be developed further and it is the beginning of new era of education in Nigeria. it should be used by all students in sciences .
Amadi Chioma Immaculate		it saves time and easy to use, please make it accessible in all phones.
Onwudinjo Precious T.		It is easy to use also it saves time. It increase one's knowledge
Lazarus N.M		It is made on phone usage hope during we find a way to use in the examination hall. I am more happy about the scale choosing ability.
Gokum Benedit Calphas		It is a nice initiative that makes graph plotting interesting. It should be made available on android phones .
Ummu Kultum Nasir		The mafuayai graphing tool should be stopped because not all students have phones and can use it.
Olaiya Deborah Damilola		I feel the app. to be of a good

		innovation and it is useful to students as it makes graph plotting easy. So the school authorities should take over.
Ajai Christiana Oluwatosin		It is interesting and it makes graph plotting easy but when next it should be used in exams or tests more time should be giving. It shouldn't be restricted to unijos students alone it should be made to go viral
Ajarrah Usulam enoch		There should be an improvement in it to use it to calculate other things and it should not only be on Android phones so that others in the secondary school or those who cannot afford the expensive gadget can have it in the smaller phones either
Yakubu Christopher		The mobile version should be invented. Kudos to the maker of the App. It us welcomed project because it makes graph work easy but it should be developed into stuff like the calculators so that during exams we can go in with it since phones are prohibited in the examination hall
Obe Joseph Adikwu		I feel satisfied with this project and it can be extended to other schools I observed that from the video calculation of the intercept was not clearly explained
Markus Alice N.		The symbols should be written in full all same nice work
Echere Sandra C.		With due respect to mr Mafuyai I just want to express sincere gratitude to you for your great work. The app could even be

		developed to plot the graph it self . may God make the app go places
Gofwen Deborah Danjuma		The mafuyai graphing tool is a very great invention it should be applauded.
Solomon Ufulu Matar		I observed that with this app graph plotting is now easy also it should be introduced to other universities and secondary schools
Jiyah Mohammed Ndache		I just want the inventor to improve in the app so the all the students can get access to it at all times.
Joseph Comfort O.		The app is good it serves time and makes graph plotting easy
Obadiah Immile Emmanuel		The app is very easy to use and it help students to achieve their goal but it consumes time
Abuchi Precious		There should be proper awareness and supervision on how to use it and students should know the importance of the App in their day to day study
Nwosun Augustina O.		It should not be a phone app only effort should made to put it on calculators.
Pam Rejoice Dung		It is a good and benefiting app please can you make it accessible on mobile phone .
Omale Cordelia O,		Make the app simpler it is a nice innovation It should be made globally because it will help students all over just keep it up and I urge you sir to make this a reality all over the world.
Ogbe Hope John		There is need in the slope and intercept formular I find the app very essential for plotting graph it makes graph plotting easy and

		interesting
Nwaboso Breeze I.		It is a good innovation it should be introduced to other schools to make their work easy
Dateer Jacinta Tapshak		I found out that it could be confusing when calculating the intercept but not withstanding More apps should be provided in a software which can be available to all, students should be able to download it any time and more time should be made available during it usage in test or exams
Yakubu Sarah Aku		The app should be enhanced to Java phones, laptop as to make all to have it
PEACE B. GOSHIT		It has helped me as a person to plot graph easily
Opara O. Lotanna		Easy to use, serves time and makes graph plotting easy but more time should be created in the test it exams to avoid unnecessary errors
Oforoum Jennfer O.		The app should be compressed into smaller phones as not all students have phones. I also advice that Students should be encouraged on the app usage.
Stephen Nanbam Bess		The app has answered many questions about graph plotting, I should be deviced into a calculator so that we can take it for exams. It is the best thing that has ever happened to me since I can now plot graph .
Anga Stephenie f.A		This a is great and it enjoy using it a lot and students should be thought how to use it. I also observed that After getting the slope, intercept, table and the formulae the app should be able to interpret the

		<p>nature of the graph</p> <p>I also just to appreciate the inventor we the students are grateful .</p>
Emmanuel Ekwerewwu		It just too useful in graph plotting
Emmanuel Reward Pana		The app is a good one I only wish the school can make it in calculator form is that those not having android phones can use it too
Joro David Wrongs		I observed that with the app students could plot graph with no stress, easy finding of slope, intercept, scale and it should be endorsed to all institutions
Ogboda Martha		<p>I observed when using the App your will be neat and accurate, it also serves time that is only when understand it.</p> <p>When using the App I feel I'm so intelligent because I need no assistance from anyone</p> <p>I want to advice that app should be made world wide</p>
Ezeme Edith Chinyere		The app should be security free however it makes work easier
Titus Tracy Ismaila		<p>The app help students to plot graph, find scale, intercept and slope</p> <p>Before I find it hard to plot graph but with this app plotting graph is so easy</p>
Thompson Angut		I discover it is a great app which reduces low performance in plotting graph
Augustine Zamdayu Wurani		It should be introduced to other universities, it serves time
Angyu Sarah Samuel		It is a good app I think it should developed like a calculator

		It serves time and it is accurate
Philemon Dianne Akutse		It is a good app that serves time and makes it easier for students in plotting graph. But since we cannot carry phones into the exam hall I think it is not important because exam is the important one and no phone in the examination hall
Maichibi Stella Wayo		It makes plotting of graph easy, finding my scale, slope and intercept is now easy
Timothy Maltida		It is a nice app which makes graph plotting easy It saves time and energy
Ugege Daniel Ogheneochko		I observed that the graph tools help students plot better graphs more easily and I think other students in Nigeria and in Africa should adopt this product so as to improve graph plotting
Dahir Aisha		Users with blackberry and android phones with smaller screen should be able to scroll through their values without the orange finish bottom blocking it
Ozumba Samuel Chinonso		It makes graph plotting easy and therefore should be made globally available for others because it is a great achievement
Amali Samuel John		I observed that it cannot be used to plot graph of negative values I advise that the App should be upgraded so that students could learn great deal of how to plot graph, find slope, intercept and enable one to resolve other graph applied problems after using the app
Samson Johnson Victor		Please there should blackberry

		version
Meant Cha'amun Esau		I observed that but all Students' phones can use this app
Edremoda Deborah Marvelous		I realise that this app is good, relevant and useful in this jet age of ours. However I notice it is most relevant in decimal numbers but not too effective in whole number especially large whole numbers If something can be done to make useful for all aspect of plotting graphs in all secondary and tertiary institutions
Ojobo Regina Ene		My advice and observation of this app isa bravo to the founder of this app because it is seriously helping and making graph plotting rasier If this app is well analysed graph plotting would not be easy It gives accurate graph to me serves time
Madaki Sarah Riswama		At first it was difficult but once I got it it became do easy Consideration should be made that but all students have Android phones There should be step by step, one on one lessons on how to properly use the app
Adama Ojochegbe Rehoboth		The graphing tool is a nice one and a great invenion My advice is that students should use it as a learning device and abusing it
Onukwolo Victor Ifeanyi		The app is good for students and it is an app for plotting accurate graph
Rachael Nuhu Dogo		It cannot be used by those who are not having smart phones

Carlenton Pomwa Audu		My advice is for you to keep in going for other researches so that you can invent the one that can be used on laptops and perhaps the to write exams with
Ezeasogu Doris Chidinma		A job well done to the brain behind the invention of this app This app should be given to other schools to enable them excel too
Gabriel Maria		I was very happy with the invention which makes plotting of graph so easy for me It serves time and very easy to use and I feel students from other institutions and other states will surely come for it
Omoha Stella Elochukwu		I want to commend all those who worked tirelessly to make this a success, it has really helped us because if you check the time you use in looking for the scale. Moreover I don't have to spend time looking for appropriate scale, slope and intercept the app does it all for me
Atang Joseph Izang		I advice that this tools should be developed for mathematics so that passing exams will be easier
Ubunama C jessica		This app is a good app helpibg students alot in graph plotting
Anelo prince Chidera		The is a nice app making graph plotting easy

Names	Dept/Microbiology	Comments
-------	-------------------	----------

Dakup Piangun Kennedy		It is a good development and all that I will advice on the tool is more light should be thrown on how to make use of the tool though that has done but I suggest more light side by side to people understand it
Ayuba Suzan Solomon		Some students like me are yet to understand how to make use of this graphing took. We need more light on how to make use of the tools believe that when we fully understand it will help alot
Owayo Sarah Ehi		The nature of the graph should be included in the next version This app has made plotting of graph so easy
Ugwu Chinaza Victor		It is very good and saves time
Tumba Joseph		For now everything in the app is great and it is OK the way it works
Tumba Dickson		The app is ok the way it is, it is easy to use and very understanding
Kwalnoe Aaron Peter		The app should be user friendly, it should have change if theme, night and day mode
Adaji Joseph Agoh		I suggest that the app should be available in calculator like since electronics cannot be carried inside the exam hall it will be a breakthrough in physics I suggest that in the next version of the App should have last memory to reduce stress
Abashi Atewa Veronica		It is easy to use, fast and clear It saves time,thank you for this product
Dedan Nuzuga Isaac		It has little error ranging from 0.1-0.2 unit when taking slope and intercept formula

		<p>If the values are not set at constant the app closes</p> <p>The app cannot just be used after been shared because it has a code</p>
Agbest Priscilla Ene		The graph should have a place to see the sketch of the graph you are plotting
Mary Egbe		It saves time when acquiring scales of high value, the app is good
ANGA STEPHANIE F.A		<p>I observed that this app helps me to find my scale very fast without wasting time</p> <p>It makes graph plotting very easy</p> <p>Job well done it really helped me</p>
ARANDONG UWENG M.		It is a job well-done more grease to your elbow sir
AMANDE JOANNA J.		<p>I observed that using the App it awakens one's interest in plotting graph</p> <p>With this app a perfect graph of any form can be plotted since a perfect scale has been provided by the when protocols are obeyed</p>
NDEL JESSICA N.		It is a faster way of plotting graphs
OKONKWO LILIAN C.		The app is the best thing that can happen to physics and graph related courses, nonetheless I find it a bit confusing in slope and intercept calculation. I would advice if possible for the step by step procedure to be more elaborate
ONMONYA ENE COMFORT		I have observed that with the app it has improved speed and accuracy and even safe time and above all it helps good accurate result taking about

		the slope and intercept
THOMAS ABNER BELLO		Cool app although to find the slope is a little bit confusing, aside that it is very easy to use
AARONDONG UWENG MARTHA		My advice is that the app should be used globally as to help other students, teachers, lecturers within and outside the country in studying physics and graph plotting
Ishaku Sarah Jeremiah		My advice is that the app should be known world wide as to reduce failures in plotting graph but during exams we cannot use it
Name	Dept/ MEDICAL LAB SCI.	COMMENTS
MATHEW CHINENYE ANNE		The graph is very good and interesting to use. I would suggest it is introduced to the secondary school level to make graph plotting easy .
NYAM BAGU CHAI		It is a perfect solution to students graph plotting problem. It should be endorsed in calculator form.
DANYARO NANRIBET S.		It is very easy to use especially when one understands the concept.
LONGS NANPYANL B.		It is fast and easy should be made available in android versions
TYEM NINNAN FAMAK		It is a nice one because it helps the students to plot their graph easily, it's a giant step in Nigerian technological advancement
VONGJEN LUCKY DANIEL		I advices that it be made in the calculator form I advised other functions to be made so that it can be self explanatory
GOAR MANYE YILJI		It should be available for all kind of devices not just

		andriod and let it be made necessary in all tertiary institutions to use
DANIEL CHIGOZIE N.		It is a very good development. It will greatly improve the grades of the students in plotting graph. However I recommend for continuation of it .
DOGO SARAH HASSAN		Its important to students and it also broaden's students knowledge. Great work
MISAL DANIEL		If students can learn the app faster solve the problem in relation to graph plotting. I suggest it should be extended to various institutions.
JOSHUA ADAH OCHEIDE		Very fast and easy to use, Error formula should also be created.
ABAYOMI BLESSING T.		I will greatly advice the app should be broadcasted keep it up.
JIWOK DIDACUS W.		Its should be made available on mobile phones .
SAMUEL GOSPEL O.		It is one of the best things that have happened to students and it must be encouraged for continual usage
ACHAGH BEMGBA V.		Sweet app I want to be a part of it .
DAKOGOL GENESIS D.		I Strongly agree with this invention price of installation should be increased
SALIS NURA S.		Better enlightenment should be made about the graphing tool. The truth is the app is splendid and amazing.
OSHIM EMMANUEL NWEKE		The uj-graphing tool is encouraging and educative students studying maths and physics should be thought the use
EDEMA MODIPE FAITH		The innovation of this app will

		encouraged globally
JUDE REBECCA MAYAM		Uj-graphing tool is a very good app for students in physics it makes plotting graph easier and saves time.
MAHAN DEBORAH DAWUS		The graph is much easier to use when you are thought how to use it. Wonderful innovation.
JESSICA TORKWASE		Uj-graphing tool is good but should be gradually put to use because not all students have Android phone.
OKEKE CHRISTIANA C.		I was not opportune to use it but my opinion is that if there is anything like that it should be worldwide.
ALI JOY		I like uj-graphing tool but time giving for the students to use it in the test was short.
ALI SOLOMON ADEJOH		Try and make it available in java devices and blackberry OS
JOHNSON MAKUT ISAAC		U-magt is important when plotting graph and other course that relates to graph plotting. Because it increase the ability of students in using the App.
GWONG BAGU		My observation is that they should make other version that can work on devices not only Android phones and laptops thanks.
ARINZE IFEANYI		i observed that pleasure and satisfaction while learning new things and I also believe that a few additional used of u-j maths graphing App will improve my competence and student of physics.
BASHIR ADAMS		it is very easy to use and understand but on using the graphing tools u-j maths,

		<p>more time should be giving because we are going to spend most of our time on our phones and by the time we return to our graph book the time will be almost over, like the last test the time was not followed accurately. Lastly the u-j maths should be made inform of a calculator in order to make it more easier for us. Seriously I love the app and God bless u-j MAGT graphing tool.</p>
ICHABA BASHIR		<p>u-j MAGT graphing tool makes graphs plotting easier and faster and in a convenient way. But the problem is that,not all the students have access to the app.</p>
PETER PATIENCE MAYOH		<p>IT saves time and makes graph plotting more understanding. Patience</p>
NANDEM EDWARD TUPSAK		<p>i advice that a video should be make to teach students how to plot graph because is possible some may not understand how the app gets the values and this may lead to poor understanding of how to plot graph.</p>
KATKUK AARON JOHN		<p>well the tool is okay but just that the app does not allow you to go back or replay any manipulation you might have made mistakes while imputing your data. And if I am to suggest,i will suggest that the app should have a rational video attached to it for beginners using the magt app. But one disadvantage of the App is that it can only be installed in smart phones other</p>

		than other simple phones like Java.and secondly phones are not allowed into the exams hall and there by making the Calculators
EZE ESTHER		it should be generalized and accepted world wide and they should keep it up.
CALEB ESTHER		this application have great brought great achievement and excellent to student that knows how to use the application, there fore my advice is that extensive orientation should be given to potential users that does not know how to use the application so that they can also be carried along.
OCHA THOMA		A welcome development

NAME	Dept/Chem	Comment
Ogbole Emmanuel Peter		With the help of the App, the areas of graph work is easier and make the graph to an accurate one in compare with plotting the graph without it.
Nendelmwa K. Golshang		That is a very well done job. Using the App. was fun.
Randong Dorcas Sunday		The should be online so that others can have it too.
Dachen Chiname Lakat		I observe the application is good, I firmly advised that the federal government should support this and schools like the secondary schools
Chantu Joseph Mfeng		The application is really nice
Nwoji Angel Mimi		I think the application should be developed further and it is the beginning of new era of

		education in Nigeria
Okafor Ojone Caroline		it saves time and easy to use, I want to believe that when it over the country people from far and near will come for and may God the inventor
Osun Onishi Patience		It is easy to use also it saves time. It increase one's knowledge
Oluwaseun Odeleke		It is made on phone usage hope during we find a way to use in the examination hall
Wuti Noah Alheri		It is a nice initiative that makes graph plotting interesting
Mancha patience Pam		The is very easy to use making graph plotting easy
Adagwu Paul Adakole		I feel the app. to be of a good innovation and it is useful to students as it makes graph plotting easy
Muhtari Muwaira		It is interesting and it makes graph plotting easy but when next it should be used in exams or tests more time will be needed
Dawuleng Mwanlong Godwin		There should be an improvement in it to use it to calculate other things and it should not only be on Android phones so that others in the secondary school or those who cannot afford the expensive gadget can have it in the smaller phones either
Okoro Joseph Chukwudi		Kudos to the maker of the App. It us welcomed project because it makes graph work easy but it should be developed into stuff like the calculators so that during exams we can go in with it since phones are prohibited in the examination hall

Agaba Augustine Abine		I feel satisfied with this project and it can be extended to other schools
Okwoli Christian Onuh		The symbols should be written in full all same nice work
Obisesan Ifeoluwa Olamiposi		The app closes unnecessarily when in use It should be used friend that is the names and symbols should be in full The app could even be developed to plot the graph instead
Adams Matthew Pam		It does not work for negative values but it is a very good and excellent product
Tetu Elfreda Ishaku		I observed that with this app graph plotting is now easy also it should be introduced to other universities and secondary schools
Dapak Lucky Danjuma		I just want the inventor to go on in making more discoveries and God bless you as you through for another research
Adole Ckement Igoche		The app is good it serves time and makes graph plotting easy
Mohammed Umar		The app is very easy to use and it help students to achieve their goal but it consumes time
Moses Tina		There should be proper awareness and supervision on how to use it and students should know the importance of the App in their day to day study
Arin Mercy Afe		It should be a phone app only
Josiah Joy Ukaonu		It is a good and benefiting app
Mweltok Gabriel Lepnaan		Make the app simpler it is a nice innovation It should be made globally because it will help students all over just keep it up
Ebereonwu Precious Uchechi		There is need in the slope and

		<p>intercept formular</p> <p>I find the app very essential for plotting graph it makes graph plotting easy and interesting</p>
Chigbu Joy Udoka		It is a good innovation it should be introduced to other schools to make their work easy
Malan Marshal Jacob		More apps should be provided in a software which can be available to all, students should be able to download it any time and more time should be made available during it usage in test or exams
Audu Caleb Adeiza		The app should be enhanced to Java phones, laptop as to make all to have it
Moses Salome Nyam		It has helped me as a person to plot graph easily
Etuka Moses Idoko		Easy to use, serves time and makes graph plotting easy but more time should be created in the test it exams to avoid unnecessary errors
Anku Deborah Ashem		Students should be encouraged on the app
Vidab Istifamus		The app has answered many questions about graph plotting, I should be deviced into a calculator so that we can take it for exams
Kondoiyol Esther Seember		<p>The should be made world wide</p> <p>After getting the slope, intercept, table and the formulae the app should be able to interpret the nature of the graph</p> <p>I also just to appreciate the inventor we the students are grateful</p>
Emmanuel Ekwerewwu		It just too useful in graph

		plotting
Emmanuel Reward Pana		The app is a good one I only wish the school can make it in calculator form is that those not having android phones can use it too
Joro David Wrongs		I observed that with the app students could plot graph with no stress, easy finding of slope, intercept, scale and it should be endorsed to all institutions
Ogboda Martha		I observed when using the App your will be neat and accurate, it also serves time that is only when understand it. When using the App I feel I'm so intelligent because I need no assistance from anyone I want to advice that app should be made world wide
Ezeme Edith Chinyere		The app should be security free however it makes work easier
Titus Tracy Ismaila		The app help students to plot graph, find scale, intercept and slope Before I find it hard to plot graph but with this app plotting graph is so easy
Thompson Angut		I discover it is a great app which reduces low performance in plotting graph
Augustine Zamdayu Wurani		It should be introduced to other universities, it serves time
Angyu Sarah Samuel		It is a good app I think it should developed like a calculator It serves time and it is accurate
Philemon Dianne Akutse		It is a good app that serves time and makes it easier for students in plotting graph. But since we cannot carry phones

		into the exam hall I think it is not important because exam is the important one and no phone in the examination hall
Maichibi Stella Wayo		It makes plotting of graph easy, finding my scale, slope and intercept is now easy
Timothy Maltida		It is a nice app which makes graph plotting easy It saves time and energy
Ugege Daniel Ogheneochko		I observed that the graph tools help students plot better graphs more easily and I think other students in Nigeria and in Africa should adopt this product so as to improve graph plotting
Dahir Aisha		Users with blackberry and android phones with smaller screen should be able to scroll through their values without the orange finish bottom blocking it
Ozumba Samuel Chinonso		It makes graph plotting easy and therefore should be made globally available for others because it is a great achievement
Amali Samuel John		I observed that it cannot be used to plot graph of negative values I advise that the App should be upgraded so that students could learn great deal of how to plot graph, find slope, intercept and enable one to resolve other graph applied problems after using the app
Samson Johnson Victor		Please there should blackberry version
Meant Cha'amun Esau		I observed that but all Students' phones can use this app
Edremoda Deborah Marvelous		I realise that this app is good,

		<p>relevant and useful in this jet age of ours. However I notice it is most relevant in decimal numbers but not too effective in whole number especially large whole numbers</p> <p>If something can be done to make useful for all aspect of plotting graphs in all secondary and tertiary institutions</p>
Ojobo Regina Ene		<p>My advice and observation of this app isa bravo to the founder of this app because it is seriously helping and making graph plotting rasier</p> <p>If this app is well analysed graph plotting would not be easy</p> <p>It gives accurate graph to me serves time</p>
Madaki Sarah Riswama		<p>At first it was difficult but once I got it it became do easy</p> <p>Consideration should be made that but all students have Android phones</p> <p>There should be step by step, one on one lessons on how to properly use the app</p>
Adama Ojochegbe Rehoboth		<p>The graphing tool is a nice one and a great invenion</p> <p>My advice is that students should use it as a learning device and abusing it</p>
Onukwolo Victor Ifeanyi		<p>The app is good for students and it is an app for plotting accurate graph</p>
Rachael Nuhu Dogo		<p>It cannot be used by those who are not having smart phones</p>
Carlenton Ponmwa Audu		<p>My advice is for you to keep in going for other researches so that you can invent the one that can be used on laptops and perhaps the to write exams</p>

		with
Ezeasogu Doris Chidinma		A job well done to the brain behind the invention of this app This app should be given to other schools to enable them excel too
Gabriel Maria		I was very happy with the invention which makes plotting of graph so easy for me It serves time and very easy to use and I feel students from other institutions and other states will surely come for it
Omoha Stella Elochukwu		I want to commend all those who worked tirelessly to make this a success, it has really helped us because if you check the time you use in looking for the scale. Moreover I don't have to spend time looking for appropriate scale, slope and intercept the app does it all for me
Atang Joseph Izang		I advice that this tools should be developed for mathematics so that passing exams will be easier
Ubunama C jessica		This app is a good app helpibg students alot in graph plotting
Anelo prince Chidera		The is a nice app making graph plotting easy

Names	Dept/Microbiology	Comments
Dakup Piangun Kennedy		It is a good development and all that I will advice on the

		tool is more light should be thrown on how to make use of the tool though that has done but I suggest more light side by side to people understand it
Ayuba Suzan Solomon		Some students like me are yet to understand how to make use of this graphing tool. We need more light on how to make use of the tools believe that when we fully understand it will help alot
Owayo Sarah Ehi		The nature of the graph should be included in the next version This app has made plotting of graph so easy
Ugwu Chinaza Victor		It is very good and saves time
Tumba Joseph		For now everything in the app is great and it is OK the way it works
Tumba Dickson		The app is ok the way it is, it is easy to use and very understanding
Kwalnoe Aaron Peter		The app should be user friendly, it should have change if theme, night and day mode
Adaji Joseph Agoh		I suggest that the app should be available in calculator like since electronics cannot be carried inside the exam hall it will be a breakthrough in physics I suggest that in the next version of the App should have last memory to reduce stress
Abashi Atewa Veronica		It is easy to use, fast and clear It saves time,thank you for this product
Dedan Nuzuga Isaac		It has little error ranging from 0.1-0.2 unit when taking slope and intercept formula If the values are not set at constant the app closes

		The app cannot just be used after been shared because it has a code
Agbest Priscilla Ene		The graph should have a place to see the sketch of the graph you are plotting
Mary Egbe		It saves time when acquiring scales of high value, the app is good
Onyeka Onyinyechi Maryblessing		I observed that this app helps me to find my scale very fast without wasting time It makes graph plotting very easy Job well done it really helped me
Muhammed Suwaiba Adamu		It is a job well-done more grease to your elbow sir
Elinora Simi John Dung		I observed that using the App it awakens one's interest in plotting graph With this app a perfect graph of any form can be plotted since a perfect scale has been provided by the when protocols are obeyed
Joseph Sarah Anzahi		It is a faster way of plotting graphs
Irokanulo Ezinne Vivian		The app is the best thing that can happen to physics and graph related courses, nonetheless I find it a bit confusing in slope and intercept calculation. I would advice if possible for the step by step procedure to be more elaborate
Omoyi Peter Uke		I have observed that with the app it has improved speed and accuracy and even safe time and above all it helps good accurate result taking about the slope and intercept
Alagbu Jennifer Onyedika		It is a very good app although

		to find the slope is a little bit confusing, aside that it is very easy to use
Nankur Byenict Silas		I think the app should be used globally as to help other students, teachers, lecturers within and outside the country in studying physics and graph plotting
Ishaku Sarah Jeremiah		My advice is that the app should be known world wide as to reduce failures in plotting graph but during exams we cannot use it
Pofi Sekyen Delphine		It is very fast and easy to understand
Aminci franca Nyimwadang		I observed that the app doesn't sketch how the graph will look like
Allison Noble Chiehiura		The graph is very good and interesting to use. I hope to see it being used actions the world soon. I would suggest it is introduced to the secondary school level to make graph plotting easy
Haruna Sahura Suleiman		It is a perfect solution to students graph plotting problem. It should be endorsed in calculator form
Okogba Tessy Uju		It is very easy to use especially when one understands the concept. I want the inventor to device a means so that who cannot get android phones can still use it. May God bless the inventor
Chuwang Prince Pam		It is fast and easy to use but the enter key usually block the answer
Ibrahim Suzan Likita		It is a nice one because it helps the students to plot their graph easily,tumbs up to the inventor

Ayighu Joseph Iliya		<p>I advised that it be made in the calculator form so that secondary school level and other institutions can have it during exams. It is very helpful in the plotting of graph.</p> <p>I advised other functions to be made so that the ordinary man can use it</p>
Madaki Sadma Abubakar		It should be available for all kind of devices not just andriod
Daniel Issac		<p>It is a very good development. It will greatly improve the grades of the students in plotting graph. But however it will cause student to forget about finding scales since it is easy to get the values using the app</p>
Danladi shedrack Zhugun		It is very important to students and it also broaden's students knowledge. Thank you sir
Yirlong Rangmi Rachael		<p>If students can learn the app faster solve the problem in relation to graph plotting. I suggest some of the App should be deleted because everything that had to do with graph is made easy and that will me to be lazy.</p>
Ozioma K. C Okwuchukwu		<p>Very fast and easy to use, it saves time but reduces students ability to use their to plot graph and it inconveniences students who cannot afford andriod.</p> <p>It makes the graph to look neater</p>
Osuji precious Chijindu		I will greatly advice the app should be broadcasted and published all over the country and even the world at large so

		as to aid students in plotting graph
Eremem F. Manasseh		It is a nice app indeed
Chai Ebenezer Emmanuel		In the me t version the slope calculation should be made easy
	AGRICULTURAL ECON/EXTENTION	
Adebiyi David O.		It should be available for other devices and easy installation and also the government should create a workshop specially to teach students and secondary school teachers to use. The prices of installation should be increased cuz the process of creating such an app is not easy.
Mshelia Stephen Anthony		Better enlightenment should be made about the graphing tool, as only one teacher to a class of more than 1000 students can be cumbersome. The truth is the app is splendid and amazing.
Zakari Yusuf Ya'u		The uj-graphing tool is encouraging and educative students studying maths and physics should be thought how to use it.
Pyalson Esther Neken		-it makes graph plotting easy and saves time -the innovation of this app will encourage other departments to improve
Yusufu Francisca Simon		Uj-graphing tool is a very good app for students in physics it makes plotting graph eaiser and safes time.
Silas Malpung Haruna		The graph is much easier to use when you are thought how to use it. It's indeed a good innovation.

Miri Gwarktim Solomon		Uj-graphing tool is good but should be gradually put to use because not all students have Android phone.
Mwoldam Biyaya Foreman		I was not opportune to use it but my opinion is that if there is anything like that it should be encouraged as the world is becoming a global village. My friends who had it really had a good graph plotting and I loved it.
Dashe Millicent Rapnaan		-i like uj-graphing tool but time giving for the students to use it in the test was short -its easy to use once u understand how to use it With more time one can use it well.
Okechukwu Alpha		Try and make it available in java devices and blackberry OS lower than BBIO
ADMAN AUDU BWEYEMI		U-magt is important when plotting graph and other course that relates to graph plotting, because it increase the ability of students in using the App and problem is that the app is not available for every student, and not all student can use the apps the need to put through so that they will understand how to use the app. Using the App will make some student lazy in their studies.
EZEABIKNA JACINFA OGECHUKWU		i think they should make other version that can work on devices not only Android phones and laptops thanks.
ISHAQ HANUSU MUHAMMAD		i observed that pleasure and satisfaction while learning new things and I also believe that a few additional used of

		u-j maths graphing App will improve my competence and student of physics.
BASHIR HELEN ADAMS		it is very easy to use and understand but on using the graphing tools u-j maths, more time should be giving because we are going to spend most of our time on our phones and by the time we return to our graph book the time will be almost over, like the last test the time was not followed accurately. Lastly the u-j maths should be made inform of a calculator in order to make it more easier for us. Seriously I love the app and God bless u-j MAGT graphing tool.
ICHABA BASHIR		u-j MAGT graphing tool makes graphs plotting easier and faster and in a convenient way. But the problem is that,not all the students have access to the app.
PETER PATIENCE MAYOH		IT saves time and makes graph plotting more understanding. Patience
NANDEM EDWARD TUPSAK		i advice that a video should be make to teach students how to plot graph because is possible some may not understand how the app gets the values and this may lead to poor understanding of how to plot graph.
KATKUK AARON JOHN		well the tool is okay but just that the app does not allow you to go back or replay any manipulation you might have made mistakes while imputing your data. And if I am to suggest,i will suggest

		that the app should have a rational video attached to it for beginners using the magt app. But one disadvantage of the App is that it can only be installed in smart phones other than other simple phones like Java.and secondly phones are not allowed into the exams hall and there by making the app to be used by students during test and assignment only. So if it is going to be possible to have a build up device for the magt tools, I think it will be very much welcome so that it can be used like calculators in the exams halls thank you.
EZE ONYNEYE ESTHER		it should be generalized and accepted world wide and they should keep it up.
CALEB ESTHER		this application have great brought great achievement and excellent to student that knows how to use the application, there fore my advice is that extensive orientation should be given to potential users that does not know how to use the application so that they can also be carried along.
OCHA THOMAS OCHA		it is a welcome development
EZEABIRWA FRANSISCA CHINONE		It is a very good development but to my observation many student do not have phones that can make use of the graphing tool. If only it can be made like a calculation it will be better used. Thanks to u-j maths graphing tools.
ANTEYI REJOICE ELOYI		The App is excellent easy to use and understand more

		grease to your elbow u-j maGr
AUGUSTINE ZUGHUMNAN BENUEL		obviously I observed experience so many thing and it really help alot in graph plotting.my advice to UK maths graphing tool is that let agredidate the soft ware to be use in the universes in general.
KURE MANYA JAMES		unshod should be providing App such as the UJ magt their work easy and make them to nominate error when plotting a graph solving other problem concerning it. Student will find it easy using the App if it is always available and someone can put them through on how to use it.
PLANGKYES PERET PANCHIN		it's wonderful to know you can just use your phone and plot graphs. I think if it's improved

NAME	Dept/ veterinary medicine	Comment
Kenneth Ewere O.		With the help of the App, the areas of graph work is easier and make the graph to an accurate one in compare with plotting the graph without it manually.
Nandap Necodemus L.		The mafuyai graphing tool is indeed a new adventure to be part of I love it.
Iliah Levi Sunom .		The App is a great invention which will make a very difficult aspect of physics easier.
Musa Abdu		The mafuyai graphing tool should be stopped and a new method of plotting graph introduced that will be , an easier application and cheaper and accessible to all the students.
Ishaku Bariyati		The application is really easy

		to use but makes student lazier
Bature Yop Jeremiah		I think the application should be developed further and it is the beginning of new era of education in Nigeria . he did a very good job.
Mathew Odey James		it saves time and easy to use, I want to believe that when it over the country people from far and near will come for and may God the inventor. Satisfactory .
Joseph Elisha		It is easy to use also it saves time. It increase one's knowledge THUMPS UP
Golupwi Rodtong John		It is made on phone usage hope during we find a way to use in the examination hall. All the same it is a very good app
Suwa mary Panmwa		It is a nice initiative that makes graph plotting interesting it is very comprehensible but many who do not know how to use it may have bad comments about it. But no one can change the fact that it will stay.
Sylvia chisaa clement		My advice is that it should be made available so that the students can install even on deskstops is very easy to use making graph plotting easy
Bawa christiana Dogo		I feel the app. Is a good innovation and it is useful to students as it makes graph plotting easy I could creat jobs and bring in more inventors to collaborate
Okugya kefas ashi		It is interesting and it makes graph plotting easy although students now wont want to use the manual method again.
Ogwujo pamela omari		There should be an

		improvement in it to use it to calculate other things and it should not only be on Android phones so that others in the secondary school or those who cannot afford the expensive gadget can have it in the smaller phones either
Nanbol nanoyal D.		Kudos to the maker of the App. It us welcomed project because it makes graph work easy but it should be developed into stuff like the calculators so that during exams we can go in with it since phones are prohibited in the examination hall
Danladi Godiya asuku		I feel satisfied with this project and it can be extended to other schools
Hirekaan moses Ngulor		The symbols should be written in full all same nice work
Adaji ocholi Gideon		The app closes when in use at some point It should be used friend that is the names and symbols should be in full The app could even be developed to plot the graph instead
Aguneche onuche shalom		I didn't use the app but my friends spoke of the positive implication of the app I advice it be meant to go round it is a very good and excellent product
Abikpo Osarewa		My advice to the mafuyai graphing tool is that it was a pleasure using it but it was not introduced to us on time and I observed that with this app graph plotting is now easy also it should be introduced to other universities and

		secondary schools
Selzing dandam nanvyek		I just want the inventor to go on in making more discoveries and God bless you as you through for another research
Daniel precious oyanu		The app is good it serves time and makes graph plotting easy and I will be a wonderful app for students if the can download it on phones
Davou francis john		The app is very easy to use and it help students to achieve their goal but it consumes time but more orientation should be giving to students on how to use.
Datong aaron shadrach		There should be proper awareness and supervision on how to use it and students should know the importance of the App in their day to day study
Ozokolo chiamaka		It should be a phone app only
Ajala damilare tolulope		It is a good and benefiting app but there are some challenges that needs to be looked into In determining error analysis
Dashap nandan gideon		Make the app simpler it is a nice innovation It should be made globally because it will help students all over just keep it up
Duniya shammah		There is need in the slope and intercept formular I find the app very essential for plotting graph it makes graph plotting easy and interesting
Idris hafsat musa		It is a good innovation it should be introduced to other schools to make their work easy
Ejeh moses ogwuche		More apps should be provided in a software which can be

		available to all, students should be able to download it any time and more time should be made available during its usage in test or exams
Adamu faithdan		The app should be enhanced to Java phones, laptop as to make all to have it it really saves time to use
Firbuk lucky james		Thanks to mr mafuyai for this great invention it should be published so it on their own so all the students can learn It has helped me as a person to plot graph easily
Joel yitmwa hope		Easy to use, serves time and makes graph plotting easy but more time should be created in the test it exams to avoid unnecessary errors
Adewale olopade		Students should be encouraged on the app
Nguket domshak benmuwan		The app has answered many questions about graph plotting, I should be deviced into a calculator so that we can take it for exams
Kpasham luimommei zethem		The should be made world wide After getting the slope, intercept, table and the formulae the app should be able to interpret the nature of the graph I also just to appreciate the inventor we the students are grateful
Emmanuel Ekwerewwu		It just too useful in graph plotting
Abiayi chinedu david		The app is a good one I only wish the school can make it in calculator form is that those not having android phones can use it too

Okoro promise		I observed that with the app students could plot graph with no stress, easy finding of slope, intercept, scale and it should be endorsed to all institutions
Ogboda Martha		I observed when using the App your will be neat and accurate, it also serves time that is only when understand it.
NAME	DEPT/PHARMACY	COMMENTS
OMALE DANIEL ABOJE		We need mobile app.
ADAMU MAIJIDDA SANNI		It should be introduced to other universities, it serves time
ABU SAMUEL JUNIOR		It is a good app I think it should developed like a calculator It saves time and it is accurate
JOHN NANDOM		It is a good app that saves time and makes it easier for students in plotting graph. But since we cannot carry phones into the exam hall I think it is not important because exam is the important one and no phone in the examination hall
SHEDUL JUDITH BENCHIT		It makes plotting of graph easy, finding my scale, slope and intercept is now easy
ONAGA JOHN CHIMDI		It saves time and energy
ADEBAJI MARY REM		I think other students in Nigeria and in Africa countries should adopt this product so as to improve graph plotting.
Simon Emmanuel Madaki		It could reach its peak if transferred to calculators.
MABUR BWEHDAT S.		It makes graph plotting easy and therefore should be made globally available for others because it is a great achievement
OCHOGWU FAITH O.		It has helped me am now not

		afraid of plotting graphs .
UMAR FATIMA B.		The tool should be transferred to various institutions of learning .
EZEH CHIAMA F.		I observed that but all Students' phones can use this app its an impressive app it should be on phones
MADAKI MATHEW AGOM		I realise that this app is good, relevant and useful in this jet age of ours.
BAKO VICTOR BOBAI		My advice and observation of this app is a bravo to the founder of this app because it is seriously helping and makes work neat
IBRAHIM SAADATU		At first it was difficult but once I got it it became do easy Consideration should be made that but all students have Android phones There should be step by step, one on one lessons on how to properly use the app
MURHTAR AHMED		The graphing tool is a nice one and a great invention
ODEH SUSAN OOJA		The app is good for students and it is an app for plotting accurate graph
OBUTE ANDREW OBUTE		It cannot be used by those who are not having smart phones and should be on calculators.
Chukwu valentine chike		My advice is for you to keep in going for other researches so that you can invent the one that can be used on laptops and to write exams with it.
DATOU YUSUFGYANG		A job well done to the brain behind the invention of this app This app should be given to other schools to enable them excel too I also advice that manual should be made for it.

MICHEAL PAUL OBRI		It's a life worth of experience capable of changing the bad impressions of students on graph plotting.
DAGUR EMMANUEL M,		I want to commend by saying keep it up sir the lord is your strength.
AGBO IRENE ENUWA		I advice that this tools should be developed for mathematics so that passing exams will be easier
WILFRED DAJIN		This app is a good app helping students alot in graph plotting
DAKUP UMBULE C.		The is a nice app making graph plotting easy
SEMSHAK NISHAK I		A help icon should be inserted to help guide the students

Names	Dept/ pharmacy	Comments
AZAMA EMMANUEL AKONYE		It is a good development and all that I will advice on the tool is more light should be thrown on how to make use of the tool.
EKONG DAVID E.		It should be programmed in portable devices
ZOAKA JEMIMAH AYUBA		The nature of the graph should be included in the next version This app has made plotting of graph so easy
MICHEAL EDACHE EMMANUEL		It is a very good app and it saves time
LUKA JOSHUA ALPHA		Everything in the app is great and it is OK the way it works
DAWUK PEACE JOEL		The app is ok the way it is, it is easy to use and very understanding
SATI SELKUN BARNABAS		The app should be user

		friendly, it should have change in themes
EZE CHIOMA FAITH		I suggest that the app should be available in calculators I suggest that in the next version of the App should have lasting memory to reduce stress
NWOSU CHIAMAKA F.		It is easy to use, fast and clear It saves time, thank you for this product keep it up
GODWIN BITRUS		It has clarify my toughest are of graph plotting. It makes me want to keep plotting graphs
HARUNA ABIGAIL AWADZI		The graph should have a place to see the sketch of the graph you are plotting
OFIKWU DANIEL		It saves time when acquiring scales of high value, the app is good It needs to reach a lot of people .
EZEH HENRY EKENE		It makes graph plotting very easy Job well done it really helped me
OGOHI MIKE ELLA		It is a job well-done more grease to your elbow sir result in graph plotting has been excellent
OCHIGBO PETER		I observed that using the App it awakens one's interest in plotting graph
ALIH OKEM DAVID		My fear is that it might make up coming children lazy.
AUGUSTINE KATHERINE D.		My advice is that the app is the best thing that can happen to physics and graph related courses, nonetheless I find it a bit confusing in slope and intercept calculation. I would advice if possible for the step by step procedure to be more elaborate
MATHEW MARVALOUS		My advice is that the app

		should be worked on and made easier and portable for use
BABAN MARYAM UMMA		It is a very good app although to find the slope is a little bit confusing, aside that it is very easy to use
AYUBA ISAH BATAH		It consumes time when using it.
APEH EMMANUEL UCHE		My advice is that the app should be known world wide as to reduce failures in plotting graph but during exams we cannot use it . And he should ensure the theory reaches an intensify conclusion
GWANTU BERNARD J.		It is very fast and easy to understand
JAFARU AMINA		I observed that the app doesn't sketch how the graph will look please work on that aspect
AGAB EGYE DAVID		Seriously I felt very happy when I heard about the app. The graph is very clean and interesting to use. I hope to see it being used actions the world soon. I would suggest it is introduced to the secondary school level to make graph plotting easy
UGWU CALISTER K.		It is a perfect solution to students graph plotting problem. It should be endorsed in calculator form
OLAPESE MARGARET A.		It is very easy to use especially when one understands the concept.
OHANU GERALO U.		Its really a great app but needs to be compressed to android
ANGEL ABIGAIL		It is a nice one because it helps the students to plot their graph easily,tumbs up to the inventor

KORNO OLALEKAN G		<p>I advised that it be made in the calculator form so that secondary school level and other institutions can have it during exams.</p> <p>I advised other functions to be made so that the ordinary man can use it</p>
AUGUSTINE JENNER A.		It should be available for all kind of devices not just andriod
BATURE NVOU		It is a very good development. Some sections should explain how to use the app.
ACHOMADU NNAMDI P.		I Think app should be modified for better usage thank you sir
ZORENO ZADOK TOYA		If students can learn the app faster solve the problem in relation to graph plotting. I suggest some of the App should be deleted because everything that had to do with graph is made easy and that will me to be lazy.
SAMSON ALFRED ABUNI		<p>Very fast and easy to use, it saves time but reduces students ability to use their to plot graph and it inconveniences students who cannot afford andriod.</p> <p>It makes the graph to look neater .make it on windows phones sir.</p>
ONOBUN EHIZUA D.		I will greatly advice the app should be broadcasted and published all over the country and even the world at large so as to aid students in plotting graph
ODEH ISAAC		It is a nice app indeed students needs to know more about the app
BELLO HIDAYAT O.		In the me t version the slope

		calculation should be made easy
SARAH OJOCHUDO		Splendid and encouraging .
OGBONNAYA IFEOMA .		It should be available for other devices and easy installation and also the government should create a workshop specially to teach students and secondary school teachers to use.
SAMUEL MIRIAM C.		The app is not easily accessible it should made available.
OGECHI JOY A.		The uj-graphing tool is encouraging and educative students studying maths and physics should be thought how to use it.
WANCHE ERNEEST		-it makes graph plotting easy and saves time -Long live Mafuyai graphing tool Long live mr Mafuyai Long live unijos
ISHAYA EMMANUEL T.		Uj-graphing tool has gone a very long way in helping students the apps help physics it makes plotting graph eaiser and safes time.
USMAN OJONUGWA		The graph is much easier to use when you are thought how to use it. It's indeed a good innovation.
		Uj-graphing tool is good but should be gradually put to use because not all students have Android phone.
EMMANUEL JOSEPH Y.		I was not opportune to use it but my opinion is that if there is anything like that it should be encouraged as the world is becoming a global village. My friends who had it really had a

		good graph plotting and I loved it.
ILIYAH JOSEPH		-i like uj-graphing tool but time giving for the students to use it in the test was short.
BELLO ABDULARAHAMAN		Try and make it available in java devices and blackberry OS lower than BBIO
DAVID NOAH ANAYA		U-magt is important when plotting graph and other course it should be implemented
BANA DANIEL JAMU		i think they should make other version that can work on devices not only Android phones and laptops thanks.
ALU EMMANUEL OJOBO		i observed that pleasure and satisfaction while learning new things and I also believe that a few additional used of u-j maths graphing App will improve my competence and student of physics.
OGARAKU MARVINS N.		it is very easy to use and understand but on using the graphing tools u-j maths, more time should be giving because we are going to spend most of our time on our phones and by the time we return to our graph book the time will be almost over, like the last test the time was not followed accurately. Lastly the u-j maths should be made inform of a calculator. Seriously I love the app and God bless u-j MAGT graphing tool.
DANIEL NGBEDE OGWU		u-j MAGT graphing tool makes graphs plotting easier and faster and in a convenient way. But the problem is that,not all the students have

		access to the app.
BITRUS FAITH DELMO		IT saves time and makes graph plotting more sweeter.
ATTAH SOLOMON O.		i advice that a video should be make to teach students how to plot graph because is possible some may not understand how the app gets the values and this may lead to poor understanding of how to plot graph.
KATKUK AARON JOHN		well the tool is okay but just that the app does not allow you to go back or replay any manipulation you might have made mistakes while imputing your data. And if I am to suggest,i will suggest that the app should have a rational video attached to it for beginners using the magt app. But one disadvantage of the App is that it can only be installed in smart phones other than other simple phones like Java.and secondly phones are not allowed into the exams hall and there by making the app to be used by students during test and assignment only. So if it is going to be possible to have a build up device for the magt tools, I think it will be very much welcome so that it can be used like calculators in the exams halls thank you.
ONWUCHEI IFEMSOCHUKWU		it should be generalized and accepted worldwide and they should keep it up.
GONGLE TONGRET G		The app has great great impact of excellence to student that knows how to use the application, therefore my

		advice is that extensive orientation should be given to potential users that does not know how to use the application so that they can also be carried along.
PHILEMON JOSHUA		Welcome development
OGUAJU VIVIAN C.		It is satisfactory and irrestable
EDUAKA AKACHI GOODLUCK		The App is excellent easy still room for improvements
DAVID JEMIMAH MAINA		obviously I observed experience so many thing and it really help alot in graph plotting.my advice to UK maths graphing tool is that let agredidate the soft ware to be use in the universes in general.
OYAGIHRE MARTHA		MAKE IT GO GLOBA
FRIDAY EDIDONG D.		it's good to know you can just use your phone and plot graphs.
